INSTRUCTION
DISPLAY-MANAGEMENT

WMf

Under the menu item "Display management" of the WMF CoffeeConnect digital platform, you can upload media remotely to the displays of your coffee machines. They can be used to display them as screensavers, advertising media or during the dispensing of beverages. In addition, these uploaded files can also be removed again.

THIS IS HOW YOU UPLOAD FILES:

- Access via the remote management field in WMF CoffeeConnect.

- Select "Display management".

- Find the desired machine using the checkbox for which a file is to be uploaded.

- Hit the [Upload file] button at the bottom right.

- Choose between screen saver, advertisement or beverage dispensing image.

- Navigate to the [Select file] button and you will also find information on the required format, size and resolution of the file.

- Select the desired file in the browser and go to [Open]. Set the desired time of execution (immediately / select date and time for delayed execution).

- Click the [Upload file] button.

THIS IS HOW YOU REMOVE FILES:

- Select "Display management".

- Find the desired machine using the checkbox for which a file is to be removed.

- Hit the [Remove file] button at the bottom right.

- Choose the type of media to be removed (screen saver, advertisement or drinks dispensing image).

- Set the desired time of execution (immediately / select date and time for delayed execution)

- Click the [Remove file] button.

Please note: This function is only available for coffee machines with WMF CoffeeConnect Inside in which the latest software has been installed. You also have to register once with your customer number.

Subject to technical changes.
